Quia - Lesson 14 Risk vs Return

As nouns the difference between risk and return is that risk is a possible, usually negative, outcome, eg, a danger while return is the act of returning. As verbs the difference between risk and return is that risk is to incur risk (to something) while return is to come or go back (to a place or person).

Risk vs Return - What's the difference? | WikiDiff

How do we compare Risk vs. Return? One way to combine risk and return is by using a "risk-adjusted return" or a score which includes risk and return measures. Also several companies provide Ratings & Scores comparing % risk and % return for a portfolio and then generating a single number or score for each portfolio.

Risk vs Return

It has been in my learning experience that there is no one definition of the word risk. There are many variations on the concept and many ways to view it. Risk in my opinion could best be described as "uncertainty of results due to the inherent unpredictable nature of the future". To put risk differently...

Lesson 3: Risk and Return - The Honest Investor

Risk Vs. Return. One of the more basic relationships in investing is between risk and reward. Investments that offer potentially high returns are accompanied by higher risk factors. It is up to you to decide how much risk you can assume. This is why having a plan is essential. It keeps in perspective the risk and return trade off.
