Relationships and Biodiversity Lab Practice Quiz Answers. 1. The reason for the common characteristics shared by the plants in this lab is the fact that the plants had a great deal of DNA which was the same as that of the common ancestor, so this coded for similar enzymes and proteins (and hence structures) in each of these plants.

Relationships and Biodiversity Lab Practice Quiz Answers ...

Relationships and Biodiversity, In this lab you must attempt to determine which species (x, y, or z) is most closely related to a hypothetical specie, Botana curus. Botana curus produces a substance called "Curol " which hypothetically cures cancer. Although this example is fictional, in the 1970's, scientists discovered new
