Reportedly, this test is only looking back to where your ancestors were about four to five generations ago, but the What you are made of section on the site states, "A typical profile provides your genetic ancestry going back about six generations." Either way, this is not a deep ancestry analysis and should reflect what we know about our recent ancestors.

Adaptation is an observable fact of life accepted by philosophers and natural historians from ancient times, independently of their views on evolution, but their explanations differed. Empedocles did not believe that adaptation required a final cause (~ purpose), but thought that it "came about naturally, since such things survived." Aristotle did believe in final causes, but assumed that ...
