The Why Behind Teaching This: Students must be able to identify variables in experiments as outlined by standard 3-5-ETS1-3 which states that students will plan and carry out fair tests in which variables are controlled and failure points are considered to identify aspects of a model or prototype that can be improved.

Fifth grade Lesson Identifying Variables in an Experiment

Differentiated instruction is a teaching philosophy based on the premise that teachers should adapt instruction to student differences. Rather than marching students through the curriculum in lockstep, teachers should modify their instruction to meet students' varying readiness levels, learning preferences, and interests.

Differentiating Instruction - ASCD
