Unit 2 Design Principles. 2.1 A tactile graphic is a representation of a print graphic designed in a manner that is the most meaningful to the reader. It is not an exact reproduction.

Guidelines and Standards for Tactile Graphics - BANA Home Page

As of December 2018, more than 41 million people are displaced within the borders of their own country by conflict and human rights violations alone. Each year, another 25 million people on average are displaced due to disaster.

Internal Displacement | International Organization for ...

In order to develop Subsurface to serve its users in the best possible way, it's important to have user information. Upon launching Subsurface and using the software for a week or so, a one-box user survey pops up. It is entirely optional and the user controls what, if any, data are sent to the Subsurface development team. All data the user sends is useful, and will only be used to steer ...
