We're now posting original research! Yes, as of late November we are hosting our own original study titled An Examination of the Effect of Prior Experience, Age, and Gender in Non-Food Blending Predictions. Though this title sounds pretty scientific, it just refers to an experiment I did with putting rubber balls in a blender to see...

There are a lot of great study books available for the AFOQT and most of them are relatively inexpensive. Many of these books contain multiple practice tests. Timing yourself while taking these practice tests is a great way to prepare for the pressure of taking the real thing. As mentioned before, older study books are still very useful if you make sure not to bother studying

Biological electron microscopy progressed slowly by accretion of large and small improvements and knowledge (see the review of Holt and Beveridge, 1982). For example, the complex technique of sectioning depends on the design of ultramicrotomes and knives, fixatives, buffers, embedding resins, and finally the mounting and staining of specimens.
