The Biology Project, an interactive online resource for learning biology developed at The University of Arizona. The Biology Project is fun, richly illustrated, and tested on 1000s of students. It has been designed for biology students at the college and high school level, but is useful for medical students, physicians, science writers, and all types of interested people.

The Biology Project

@KingReload It means when the p value is very small, that says the probability of these two samples Not coming from the same distribution is very low. In another word, the probability of these two sample coming from same distribution is very high. But you can not be 100% sure about that hence p values are never zero. (Sometimes they show as 0, but actually, it's never zero).

Two-sample Kolmogorov-Smirnov Test in Python Scipy
