Bio 270 Practice Population Growth Questions 1 Population Growth Questions Answer Key 1. Distinguish between exponential and logistic population growth. Give the equations for each. Exponential growth is continuous population growth in an environment where resources are unlimited; it is density-independent growth. $dN/dt = rN$ where,

Population Growth Questions Answer Key - Bates College

Reindeer of St. Matthew Island Carrying Capacity Activity. St. Matthew Island, located near Alaska, had a population of reindeer introduced in 1944. The population exploded, as the island had no predators or other factors to slow their growth rate.

Reindeer of St. Matthew Island Carrying Capacity Activity

Activity 4 Factors Affecting Population Size Population Density May Fluctuate Any population has a built-in, characteristic growth rate. This is the rate at which the group would grow if food and space were unlimited and individuals bred freely. Environmental factors do affect a population's growth rate, however. The interaction of the population's
