The most basic concept of all: convection currents!! I've seen many ways to introduce this concept. One uses Baby Food Jars. Fill one baby food jar to the brim with very hot, red-dyed water. Fill another baby food jar with very cold, blue-dyed water. Cover the red jar with an index card, turn it over and place over the blue jar.

Class Handouts. The handouts and PowerPoint presentations below are resources to be used by any/all students and educators. It is appreciated if credit is given when these materials are reproduced or published in any way.

Class Handouts - Mr. Jones's Science Class

Abstract Has the temperature in your house felt hotter or colder recently? This could be due to the greenhouse effect. The greenhouse effect states that gases in the atmosphere, such as CO₂, might increase the surface temperature of Earth. In this science fair project, you will build a small model of Earth and use it to see how the temperature varies, compared to outside of the model.

Is it Getting Hot in Here? Investigate the Greenhouse Effect

Mitosis Skit Students should write and perform a skit to show the process of mitosis, using the loose guidelines that follow. These guidelines are intended to help get you started, as well as provide room for the development of a skit that suits your class size, available supplies, and students' creativity.
