From the ancient Egyptian mummifications to 18th century scientific research on "globules" and neurons, there is evidence of neuroscience practice throughout the early periods of history. The early civilizations lacked adequate means to obtain knowledge about the human brain. Their assumptions about the inner workings of the mind, therefore, were not accurate.

Animal sacrifice is the ritual killing and offering of an animal usually as part of a religious ritual or to appease or maintain favour with a deity. Animal sacrifices were common throughout Europe and the Ancient Near East until Late Antiquity, and continue in some cultures or religions today. Human sacrifice, where it existed, was always much more rare. ...
