The politicization of science is the manipulation of science for political gain. It occurs when government, business, or advocacy groups use legal or economic pressure to influence the findings of scientific research or the way it is disseminated, reported or interpreted. The politicization of science may also negatively affect academic and scientific freedom.

Although authors are relatively consensual about the general ordering of the layers, there is considerable disagreement about what the different layers might encompass (). Schein (1992) is careful in interpreting the meaning of the outer layers, which is reflected in his phrasing, i.e. espoused values and artefacts, hereby clearly indicating that what is seen and heard is not always a true ...
