Static Electricity - Super Teacher Worksheets

Static electricity is due to electric charge that builds up on the surface of an insulator, such as a plastic comb. The charge that has built up cannot easily flow away from the insulator, which is why it is called static electricity. What causes static electricity?

Static Electricity - St Edmund's Girls' School

Your local power company charges 20 cents per kilowatt-hour. Over the course of a month, you use a lamp with a 100-watt light bulb for 15 hours.

Electricity Answer Key - HelpTeaching.com

I start class with a reminder that the Electrostatics & Electricity Unit Test is tomorrow. This means that we are reviewing today, so I remind students about testing rules and procedures and pass out the practice test. I explain to students that I'd like them to work the first fifteen minutes completely alone on this practice test, with no resources other than a calculator and equation sheet.
