Our data also indicates that first-generation students have lower percentile ranks than their peers

when assessing resiliency. Due to the varied backgrounds of first-generation students—and the narrative around certain student populations overcoming odds to participate in higher education—it could be assumed that first-generation students would score higher in resiliency than their peers.

People sleep peaceably in their beds at night only because rough men stand ready to do violence on their behalf. --- George Orwell. I am therefore of the opinion that when a democratic people engages in a war after a long peace, it incurs much more risk of defeat than any other nation; but it ought not easily to be cast down by its reverses, for the chances of success for such an army are ...

What is science? Science is the concerted human effort to understand, or to understand better, the history of the natural world and how the natural world works, with observable physical evidence as the basis of that understanding 1.It is done through observation of natural phenomena, and/or through experimentation that tries to simulate natural processes under controlled conditions.
