If you want to raise better adjusted kids, you probably want to practice some level of stealth wealth so that they don't grow up spoiled and unable to recognize prosperity. A couple readers have pointed out that I was raised rich given I had two parents with stable jobs. Instead of having to walk, I got to ride a bicycle to school. I even got a 486 desktop computer my junior year.

Analysis paralysis is a critical problem in athletics. It can be explained in simple terms as "failure to react in response to over-thought." A victim of sporting analysis paralysis will frequently think in complicated terms of "what to do next" while contemplating the variety of possibilities, and in doing so exhausts the available time in which to act.
