The first system referred by Telles is that of the Brazilian Institute of Geography and Statistics (IBGE). In the Census, respondents may identify their ethnicity or color from five categories: branca (white), parda (brown), preta (black), amarela (yellow) or indígena (indigenous). The term parda needs further explanation; it has been systematically used since the Census of 1940.

I just finished the 8th book and it'll be a goddamn travesty if the show doesn't make it that far. I don't know how the authors have managed to throw in so many moments where some rule or law of physics or nature or society or politics or human behavior has permanently changed (there's like 2-3 per book) and still keep this whole story universe from jumping the shark.
