ASQ is a global community of people passionate about quality, who use the tools, their ideas and expertise to make our world work better. ASQ: The Global Voice of Quality.

Selecting Tools for Software Quality Management - ASQ

I found "Object-oriented systems analysis and design using UML" by Simon Bennett, Steve McRobb and Ray Farmer quite good (if I recall correctly there's a few case studies at the end of each chapter), and "Software Engineering" by Ian Sommerville covers UML and its use in requirements engineering, design, etc. too.

UML diagrams exercises - Stack Overflow

This is a list of equipment of the British Army currently in use. It includes small arms, combat vehicles, aircraft, watercraft, artillery and transport vehicles. The primary task of the British Army is to help defend the interests of the United Kingdom, but it can also serve as part of a North Atlantic Treaty Organisation (NATO) force, or a United Nations (UN) or any other multi-national force.

The trolley problem is a specific ethical thought experiment among several that highlights the difference between deontological and consequentialist ethical systems. The central question that these dilemmas bring to light is on whether or not it is right to actively inhibit the utility of an individual if doing so produces a greater utility for other individuals.
