Details. Following the election of Barack Obama as president, who campaigned heavily on accomplishing health care reform, the Patient Protection and Affordable Care Act (PPACA) was enacted in March 2010. However, in the next election of Donald Trump as president, he campaigned to repeal and replace Obamacare and came up with a seven-point plan for healthcare reform.

Healthcare reform debate in the United States - Wikipedia

Problem: Healthcare providers have little to no access to accurate and actionable information on the cost of care. According to a recent survey, 90% of healthcare leaders are “flying blind” when it comes to understanding cost. How can you reduce variation, waste and inefficiency in order to invest in and improve care if you don’t have any access to data?
