Information economics or the economics of information is a branch of microeconomic theory that studies how information and information systems affect an economy and economic decisions. Information has special characteristics: It is easy to create but hard to trust. It is easy to spread but hard to control.

Information economics - Wikipedia

Project management is the practice of initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time.. The primary challenge of project management is to achieve all of the project goals within the given constraints. This information is usually described in project documentation, created at the ...
