Solution-focused Brief practice is an approach based on solution building rather than problem solving. It explores current resources and future hopes rather than present problems and past causes. Who can benefit from this approach?

Solution Focused Training | family based solutions

Solution selling is a sales methodology. Rather than just promoting an existing product, the salesperson focuses on the customer's problems and addresses the issue with appropriate offerings (product and services). The problem resolution is what constitutes a "solution". Solution selling is usually used in sales situations where products are just one of the elements that lead to a solution.

Solution selling - Wikipedia

Complex challenges require expertise and experience. Achieving success in the healthcare industry requires operating at a fast pace. Evolving regulations, advances in technology, the transition to value-based care, and growing consumerism are just a few of the many pressures pushing payers and providers to continually innovate and transform.
