Research Methodology Questions Answers Objective

The difference between research and non-research activity is, in the way we find answers: the process must meet certain requirements to be called research. We can identify these requirements by examining some definitions of research.

RESEARCH METHODOLOGY - IHM Gwalior

Perhaps the most important part of the survey process is the creation of questions that accurately measure the opinions, experiences and behaviors of the public. Accurate random sampling and high response rates will be wasted if the information gathered is built on a shaky foundation of ambiguous or biased questions. Creating good measures involves both [...]

1. Introduction. In 2006, senior members of the Academy of Management voiced concerns about whether research on management is interesting, and whether the proportion of interesting research is falling (Bartunek, Rynes, & Ireland, 2006). They considered “interesting research” research that develops theory, is innovative, and less formulaic (p. 9).

What is a good research question?

Sociological theory vs. social theory. Kenneth Allan proposed the distinction between sociological theory and social theory. In Allan's usage, sociological theory consists of abstract and testable propositions about society. It often heavily relies on the scientific method, which aims for objectivity, and attempts to avoid passing value judgments. In contrast, social theory, according to Allan ...
