Section 106 of NHPA requires Federal agencies to enter a 4-step review process to consider the effects of its actions on historic properties. As a Federal agency, FEMA must "take into account" the effects of our actions, or undertakings on historic properties and "afford the Advisory Council on Historic Preservation a reasonable opportunity to comment on [FEMA] actions."

Tissue Membranes. A tissue membrane is a thin layer or sheet of cells that covers the outside of the body (for example, skin), the organs (for example, pericardium), internal passageways that lead to the exterior of the body (for example, abdominal mesenteries), and the lining of the moveable joint cavities. There are two basic types of tissue membranes: connective tissue and epithelial ...

Throughout this chapter, we will express embryonic and fetal ages in terms of weeks from fertilization, commonly called conception. The period of time required for full development of a fetus in utero is referred to as gestation (gestare = "to carry" or "to bear"). It can be subdivided into distinct gestational periods.
