SQLServerCentral - The #1 SQL Server community

In SQL server 2005 new datatypes were introduced: varchar(max) and nvarchar(max) They have the advantages of the old text type: they can contain up to 2GB of data, but they also have most of the advantages of varchar and nvarchar. Among these advantages are the ability to use string manipulation functions such as substring().

SQL Server Text type vs. varchar data type - Stack Overflow
