Context awareness is a property of mobile devices that is defined complementarily to location awareness. Whereas location may determine how certain processes around a contributing device operate, context may be applied more flexibly with mobile users, especially with users of smart phones. Context awareness originated as a term from ubiquitous computing or as so-called pervasive computing which ...

If you want more data on life support than you know what to do with, try reading this NASA document. Otherwise, read on. For some great notes on spacecraft life support, read Rick Robinson's Rocketpunk Manifesto essay.. As a very rough general rule: one human will need an amount of mass/volume equal to his berthing space for three months of consumables (water, air, food).
