ANSWER: The catacombs were underground burial places in which Christians hid from the persecutions of the Roman emperors. During the first 200 years of Christianity, over 6 million Christians were entombed within the catacombs of Rome. - murdered. How many more were buried within the other unexplored catacombs is difficult to say.

QUESTIONS AND ANSWERS - beforeus.com

A tunnel is an underground passageway, dug through the surrounding soil/earth/rock and enclosed except for entrance and exit, commonly at each end. A pipeline is not a tunnel, though some recent tunnels have used immersed tube construction techniques rather than traditional tunnel boring methods.. A tunnel may be for foot or vehicular road traffic, for rail traffic, or for a canal.

What happens in the natural water cycle? The natural water cycle uses physical processes to move water from the surface of the earth to the atmosphere and back again. Evaporation is when the sun shines on water and heats it, turning it into gas called water vapour which rises into the air.; Transpiration is when the sun warms people, plants and animals and they release water vapour into the air.
