The oft-parroted sound bite – "we need herd immunity"- implies that if ninety five percent of the population can become "immune" to a disease via vaccination, target immunity levels will be met and diseases will either be eradicated or controlled. This sound bite is the most commonly pulled weapon used by the vaccinators, only second to "smallpox and polio were eradicated by vaccination."

The "father of Western medicine," Hippocrates, estimated that phthisis was the most widespread disease of his age. He further told his students that they shouldn't attempt to treat patients in the last stages of phthisis, as they were sure to die and it would ruin his protégés' reputation as healers if they made a practice of attempting to heal such individuals.

This is a list of Adventures of Superman episodes. Much of the Superman "formula", in all forms of its media presentations, involves Superman rescuing someone, either one or more of his colleagues or another person or persons. In those cases, success is largely a matter of Superman simply "getting there on time" to save the day. Some of the strongest episodes in the series tend to be the ones ...
