Windows Answer File Generator (WAFG) is a simple website that provides similar functions to Windows System Image Manager (SIM).. Windows System Image Manager is the tool used to create an unattended Windows Setup answer file.

Windows Answer File Generator

History. Sysprep was originally introduced for use with Windows NT 4.0. Later versions introduced for Windows 2000 and Windows XP are available for download from Microsoft and included in the Windows CD. Windows Vista is the first version of Windows NT to include a version of Sysprep that was independent of the hardware abstraction layer (HAL), in the "out of box" installation.
