eHealth (also written e-health) is a relatively recent healthcare practice supported by electronic processes and communication, dating back to at least 1999. Usage of the term varies. A study in 2005 found 51 unique definitions. Some argue that it is interchangeable with health informatics with a broad definition covering electronic/digital processes in health while others use it in the ...

R3. In-Text Citations. R3.1. For standard legal documents, in-text citations are rendered either as (i) a complete sentence that supports a claim in the immediately preceding sentence of text, or, (ii) when the citation relates to a particular part of a sentence, as a clause within the sentence, immediately following the claim it supports.

The Indigo Book: A Manual of Legal Citation

INTRODUCTION. Fluid therapy maintains the normal volume and composition of body fluids and, if needed, corrects any existing abnormalities. In children, the most common abnormality requiring fluid therapy is hypovolemia or dehydration, often related to vomiting and diarrhea from gastroenteritis.
