The Annexation of Goa was the process in which the Republic of India annexed the former Portuguese Indian territories of Goa, Daman and Diu, starting with the "armed action" carried out by the Indian Armed Forces in December 1961. Depending on the view, this action is referred as the "Liberation of Goa" or the "Invasion of Goa". Following the end of Portuguese rule in 1961, Goa was placed under ...

Software Testing Lab Manual - Karnataka

Thanks for your response Chris this is all very helpful info. Just double checking is it only the LOB ROB and CHANNEL that affect the calculations not the stationing (i.e if you had one channel centreline at station 100 and the next cross section centreline at 200 but the LOB and ROB are equal then the calculations would not be affected)

The RAS Solution: How to draw cross sections.

Still Having Lion Wi-Fi Problems? This Solution Works. This worked for me: I am using a macbook Pro. Try to change the channel on your router (if at home) to channel 11.

Fuzzing or fuzz testing is an automated software testing technique that involves providing invalid, unexpected, or random data as inputs to a computer program. The program is then monitored for exceptions such as crashes, failing built-in code assertions, or potential memory leaks. Typically, fuzzers are used to test programs that take structured inputs

Fuzzing - Wikipedia

Hi Olga, thanks for sharing! I recently learned about UPL and that it can be also used without SolMan, via Report /SDF/UPL_CONTROL . Now you say that SCMON is better than UPL, so it's probably a good idea not to dig too deep into UPL, but more into SCMON, right?!
