Information on Licenses and Permits. Fish, Amphibian, & Aquatic Plants Permits Aquatic Resource Permits. An Aquatic Resource Permit (ARP) is required for any activity to collect fish, amphibian, shellfish, or marine aquatic plants that is not covered by current sport, personal use, aquatic farm, and commercial regulations.

### **Licenses & Permits, Alaska Department of Fish and Game**

General. Unchecked global warming could affect most terrestrial ecoregions. Increasing global temperature means that ecosystems will change; some species are being forced out of their habitats (possibly to extinction) because of changing conditions, while others are flourishing. Secondary effects of global warming, such as lessened snow cover, rising sea levels, and weather changes, may ...

Plastic contamination is an increasing environmental problem in marine systems where it has spread globally to even the most remote habitats. Plastic pieces in smaller size scales, microplastics (particles <5 mm), have reached high densities (e.g., 100 000 items per m<sup>3</sup>) in waters and sediments, and are interacting with organisms and the environment in a variety of ways.

### **Microplastics in freshwater systems: A review of the ...**

The aquatic ape hypothesis (AAH), also referred to as aquatic ape theory (AAT) and more recently the waterside model, is the idea that certain ancestors of modern humans were more aquatic than other great apes and even many modern humans, and, as such, were habitual waders, swimmers and divers. The hypothesis in its present form was proposed by the marine biologist Alister Hardy in 1960, who ...
