Lesson Plan | Ruminating on the Digestive System

In Exam Mode: All questions are shown in random and the results, answers and rationales (if any) will only be given after you've finished the quiz. You are given 1 minute per question, a total of 25 minutes in this quiz.

Digestive System Disorders NCLEX Practice Quiz #6 (25 ...

The epigenome is a multitude of chemical compounds that can tell the genome what to do. The human genome is the complete assembly of DNA (deoxyribonucleic acid)-about 3 billion base pairs - that makes each individual unique. DNA holds the instructions for building the proteins that carry out a variety of functions in a cell.

Epigenomics Fact Sheet | NHGRI

Although the digestive system is often just associated with the stomach and intestines, it's actually a lot more complicated than that. To function at the optimal level, the digestive system requires peak performance from all of the parts of the GI tract (including stomach and intestines), as well as the liver, kidneys, and gallbladder.
