Sociology. In the sociology of knowledge, a controversy over the boundaries of autonomy inhibited analysis of any concept beyond relative autonomy, until a typology of autonomy was created and developed within science and technology studies. According to it, the institution of science's existing autonomy is "reflexive autonomy": actors and structures within the scientific field are able to ...

Parenting or child rearing is the process of promoting and supporting the physical, emotional, social, and intellectual development of a child from infancy to adulthood. Parenting refers to the intricacies of raising a child and not exclusively to the biological relationship. The most common caretaker in parenting is the biological parent(s) of the child in question, although others may be an ...

Somewhat related: With a few weeks of practice I managed to develop the skills to make a fire kit and actually make a fire with a hand drill. It was a bastard, and we barely pulled off the fire as part of the show, but again, it illustrates that although many of these skills are quite complex, a relative amateur can attain enough technique to pull this off in fairly demanding situations.
