Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

At the request of the lovely Sophie and in honour of Eyjafjallajokull, we made a volcano. Luckily ours was a lot safer and has had absolutely no effect on international air travel. And I promise I'm really not going to load every post up with videos from now on, but admit it – don't you want to see the eruptions?
