How Do Radiation Treatments for Cancer Work? - Live Science

History. The radiation is named after the Soviet scientist Pavel Cherenkov, the 1958 Nobel Prize winner, who was the first to detect it experimentally under the supervision of Sergey Vavilov at the Lebedev Institute in 1934. Therefore it is also known as Vavilov-Cherenkov radiation. Cherenkov saw a faint bluish light around a radioactive preparation in water during experiments.

Cherenkov radiation - Wikipedia

X-rays are a type of radiation that are created using large amounts of electricity in a x-ray tube. X-rays are used in medical imaging much like a camera uses visible light to create an image.
