While redshift can be used to tell us about the recession velocity of (non relativistic) galaxies, we also need to find a way to measure the distance to these galaxies. Astronomers have two main methods to measure these distances; parallax (more parallax here) and cepheid variable stars - there's a Khan Academy video on cepheid variable stars.

Twelfth grade, senior year, or grade 12 is the final year of secondary school in most of North America. In other regions it is also equivalently referred to as class 12 or Year 13. In most countries students then graduate at age 18. Some countries have a thirteenth grade, while other countries do not have a 12th grade/year at all. Twelfth grade is typically the last year of high school ...

Here's another one! Threw this together with some tips that my dad gave me when I was writing my Common App essay. I know it's a bit repetitive about "tell your story" but according to dad (who was on the admissions board for graduate school) it's crucial that you convey your message in a way that's both not-boring and informative.
