Sampling and analysis or visual examination of soil to assess its status and use potential is widely practiced from plot to national scales. However, the choice of relevant soil attributes and interpretation of measurements are not straightforward, because of the complexity and site-specificity of soils, legacy effects of previous land use, and trade-offs between ecosystem services.

Genetically modified food controversies are disputes over the use of foods and other goods derived from genetically modified crops instead of conventional crops, and other uses of genetic engineering in food production. The disputes involve consumers, farmers, biotechnology companies, governmental regulators, non-governmental organizations, and scientists.

Genetically modified food controversies - Wikipedia

My sphere came with 4 inhabitants: Kabob, Creole, Gumbo and one who died so early on that I can't even remember what we named it. After the first one died, a month or so after purchase, the others took to eating what was left of him pretty instantaneously.
