Description: This book uses the latest technology to address the basic theories involved in solving descriptive geometry problems. By incorporating the practical use of computer-aided drafting and design software into the theories and solutions, Descriptive Geometry: An Integrated Approach Using AutoCAD®, 2E gives readers an edge that traditional descriptive geometry textbooks don't provide.

"MindTap really helped to reinforce and apply concepts learned in lecture as well as through reading the relevant chapters. I especially find that the engagement exercises help me to see how the concept of psychology is applied to real life situations as well as making reference to conducted studies.

Mistake #8: Multitasking. To get on top of her workload, Linda regularly writes emails while she chats on the phone to her clients. However, while Linda thinks that this is a good use of her time, the truth is that it can take 20-40 percent more time to finish a list of jobs when you multitask, compared with completing the same list of tasks in sequence.

Teamwork is the collaborative effort of a team to achieve a common goal or to complete a task in the most effective and efficient way. This concept is seen within the greater framework of a team, which is a group of interdependent individuals who work together towards a common goal. Basic requirements for effective teamwork are an adequate team size (about 6-8 members), available resources for ...
