What Does NDT, NDE and NDI stand for and is there a difference? NDT stands for Non Destructive Testing and there is no real difference between NDT, NDE (nondestructive evaluation) or NDI (nondestructive inspection), the latter two being a choice of preference among members of different industries. All refer to the same category of quality control test procedures that examines the integrity (or ...

Visual field testing has advanced greatly in recent years. While Humphrey (and Octopus) perimeters are the most widely used devices by optometrists and ophthalmologists, several newer strategies - some using these same machines, others use different devices - have been introduced which allow for earlier detection of field defects and easier monitoring of field changes.
