Section 2 Reinforcement Wave Properties Answers

Wave Properties and Behavior Answer Key. The larger student would create a wave with larger amplitude. The smaller student would create a wave with larger amplitude. The larger student would create a wave with larger wavelength. The smaller student would create a wave with larger wavelength.

Wave Properties and Behavior Answer Key - HelpTeaching.com

Waves Study Guide Major topics on the test will include: A. The Nature of Waves a. Transfer of Energy b. Mechanical c. Transverse d. Compressional B. Wave Properties a. Crests and Troughs b. Compressions and Rarefactions c. Wavelength, Frequency, Period, and Amplitude d. Velocity = Frequency x Wavelength C. Behavior of Waves a. Reflection b. Refraction

Physical Science Packet Chapter 10: Waves - Stephen Roe

• Sound waves usually travel faster in liquids and solids than they do in gases. However, light waves travel more slowly in liquid and solids than they do in gases or in empty space. Wave Properties • Sound waves usually travel faster in a material if the temperature of the material is increased. Wavelength is Related to Frequency 2
