Yesterday I was pairing the socks from the clean laundry and figured out the way I was doing it is not very efficient. I was doing a naive search — picking one sock and "iterating" the pile in order to find its pair.

algorithm - How to pair socks from a pile efficiently ...

The following is the introduction to a working paper I wrote while recovering from surgery a couple of months ago. This brings together much of what I've been writing over the last year or two about productivity, science and innovation policy and the need to rebalance the UK's innovation system to increase R&D capacity outside London and the South East.
