Welcome to the e-CF. The European e-Competence Framework (e-CF) provides a reference of 40 competences as applied at the Information and Communication Technology (ICT) workplace, using a common language for competences, skills, knowledge and proficiency levels that can be understood across Europe.

European e-Competence Framework

The navigator.hardwareConcurrency attribute's getter must return a number between 1 and the number of logical processors potentially available to the user agent. If this cannot be determined, the getter must return 1. User agents should err toward exposing the number of logical processors available, using lower values only in cases where there are user-agent specific limits in place (such as a ...

Critical Care Self-Assessment Program (CCSAP) - ACCP

15.17.1.9. Passing pointers (or: passing parameters by reference)¶ Sometimes a C api function expects a pointer to a data type as parameter, probably to write into the corresponding location, or if the data is too large to be passed by value. This is also known as passing parameters by reference.. ctypes exports the byref() function which is used to pass parameters by reference.

15.17. ctypes — A foreign function library for Python ...

Abstract. HTML 5 contains several features that address the challenge of building Web applications that work while offline. This document highlights these features (SQL, offline application caching APIs as well as online/offline events, status, and the localStorage API) from HTML 5 and provides brief tutorials on how these features might be used to create Web applications that work offline.

Offline Web Applications - World Wide Web Consortium
