And this is how you can make the IP camera set-up without Internet. Those wireless security camera video systems have built-in WiFi modules with frequency from Channel 9 of 2.4 GHz (of course you can change the channel by yourself within the WLAN channels), so that it won't mess with your router bands (if you have router networks).. Remember that you need to connect the system to a router if ...

2 Solutions for Wireless Security Cameras without Internet ...

A laptop computer (also shortened to just laptop; or called a notebook or notebook computer) is a small, portable personal computer (PC) with a "clamshell" form factor, typically having a thin LCD or LED computer screen mounted on the inside of the upper lid of the clamshell and an alphanumeric keyboard on the inside of the lower lid. The clamshell is opened up to use the computer.
