The previous section introduced the eight primitive data types and the type String.There is a fundamental difference between the primitive types and String: Values of type String are objects. While we will not study objects in detail until Chapter 5, it will be useful for you to know a little about them and about a closely related topic: classes.This is not just because strings are useful but ...

1.3 Units of Measurement. As a general rule I try to use the metric system throughout this FAQ. Units belonging to the U.S. Customary measurement system will crop up periodically since the primary sources of information about nuclear weapons in general are from the United States and I have not tried to convert all measurements from U.S. sources to metric yet.
