Sorby was far from alone. After decades of research, spatial cognition has emerged as one of the few areas where women do not perform as well as men on tasks like mental rotation or "wayfinding," orienting oneself in physical space.

A Cognitive Difference Between Women and Men Gives Men an ...

Space is the boundless three-dimensional extent in which objects and events have relative position and direction. Physical space is often conceived in three linear dimensions, although modern physicists usually consider it, with time, to be part of a boundless four-dimensional continuum known as spacetime.The concept of space is considered to be of fundamental importance to an understanding of ...

Intelligence To be intelligent you first have to know what being Intelligent is. And you also have to know what being ignorant is. Ignorant is just another word for "Not knowing".But not knowing is not always obvious or clearly understood.That's because learning is not fully understood. The more you learn the more you should realize what you didn't know.
