### asp.net - MVC, Entity Framework Select data from multiple ...

Statistics is a branch of mathematics working with data collection, organization, analysis, interpretation and presentation. In applying statistics to, for example, a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model process to be studied. Populations can be diverse topics such as "all people living in a country" or ...

A few weeks ago, I wrote about Kickstarter failures that were difficult to find because Kickstarter intentionally prevents failed campaigns from being indexed by the search engines...and how I managed to find (what turned out to be) about 59% of the unsuccessfully funded projects.. My article generated a lot of attention, including Mashable and VentureBeat (which republished my post).
